SAWSTOP

ONE TURN ELEVATION

Ground-breaking elevation system raises or lowers the blade in just one turn of the handwheel. Other saws require over 25 turns.

ONLY ON
SAWSTOP

QUICKTILT

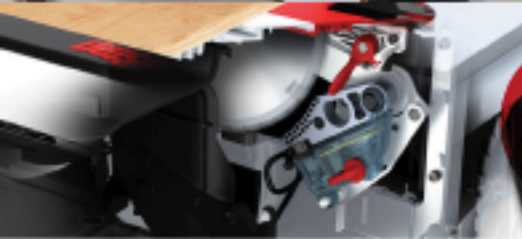

Tilt the blade easily and quickly to your ideal angle in 1 degree increments. Fine tune with the infinitely-adjustable tilt adjust.

ONBOARD ACCESSORY STORAGE DRAWER

Keep your accessories contained and protected in the onboard storage drawer. Find your Micro Guard, riving knife, miter gauge and more, all ready for quick use.

DUST COLLECTION

Advanced under-table blade shrouding maximizes dust collection. Attach your vacuum and keep your workspace cleaner and safer.
